

DESCRIPTION

Max Soft consists of a blend of cationic fabric softeners. **Max Soft** is added during the rinse cycle in a laundry washing machine. **Max Soft** releases stress on textiles which is particularly important for natural fibres such as cotton and wool. **Max Soft** also prevents build-up of electrostatic charges, reduces wrinkles on garments, and makes fabrics easier to iron. **Max Soft** softens by coating the surface of the fabric with a layer of electrically charged compound, causing the fibres to "stand up" from the surface thus producing a fluffier and softer texture, it also leaves a pleasant scent. Be aware that adding too much laundry softener on towels might lower their absorbency. Do not use **Max Soft** on microfibre cloths, flameproof children's clothes, water-resistance items and synthetic fabrics.

FEATURES & BENEFITS

anti-static formulation • excellent softening properties • longer linen life • reduces drying time • softer on hands

DIRECTIONS

Max Soft can be dispensed directly from the container by your Project Clean Laundry Injection System.

FIRST AID

Eyes & Skin: If eye or skin contact occurs, immediately flush with plenty of water for at least 15 minutes. Call a physician. **Inhalation:** Remove to fresh air. Call a physician. **Ingestion:** If swallowed, promptly give plenty of water or milk. Do not induce vomiting. Call a physician.

For further information, please review the Safety Data Sheet (SDS) and Product Label.

STORAGE & HANDLING

Keep from freezing. Store upright in original closed container at room temperature away from children. Do not mix with any other chemicals.

PHYSICAL DATA

Package: 18.9L pails
Appearance: opaque liquid
Colour: blue
Foam: mild
Odour: pleasant
pH: 5.5 - 6.5
