

Max Booster

Laundry Booster

DESCRIPTION

Max Booster is a laundry additive with a balanced blend of activating agents in liquid form for immediate dispersal throughout the wash load. The water conditioning agents in *Max Booster* enhance our laundry detergent's cleaning capability for exceptional results in hard water areas.

Max Booster gives a controlled high pH over an extended period for better cleaning. It assures the highest degree of soil release, safely and with the retention of tensile strength for longer fabric life.

SPECIAL INFORMATION

Max Booster is a Canadian Food Inspection Agency (CFIA) approved product for use in registered food processing plants.

DIRECTIONS

Max Booster is designed to be dispensed directly from the shipping container by your liquid laundry injection system. For specific applications, please check with your Maxim representative.

When *Max Booster* is used, be sure laundered material is adequately rinsed with potable water.
