

### DESCRIPTION

**Evolution** floor finish combines the most up-to-date advances in polymer technology to give you unsurpassed gloss, black heel mark resistance and superior wear characteristics. This work horse product is ideal for any institutional, industrial or hospitality market. **Evolution** can be used on a variety of resilient and non resilient flooring including vinyl, composite tile, polyvinyl chloride, linoleum, marmoleum, sheet vinyl, quarry tile, terrazzo and concrete. **Evolution** can be used without a sealer; however, on a porous floor it is beneficial to apply additional coats to produce a better base to work on.

### FEATURES & BENEFITS

EcoLogo™ certified • burnishable gloss • 20% solid • zinc-free • styrene-free • economical to use • exceeds the standards set by ASTM for slip resistance

### DIRECTIONS

1. Remove old finish with a floor stripper.
2. Pick up spent solution with a mop or wet-vac.
3. Rinse floor with floor cleaner.
4. Apply finish with a clean finish mop, either fine string or candy striped. Pre-wet with water and wring out to conserve finish.
5. Apply up to 6 thin, even coats of **Evolution**.
6. Allow 20 minutes average drying time between coats. Drying time will vary with thickness of film, type of floor and relative humidity.

Maintain gloss by dust mopping floor daily. Damp mop with a neutral detergent such as **NeutraMax** for best results.

### FIRST AID

**Eyes & Skin:** If eye or skin contact occurs, immediately flush with plenty of water for at least 15 minutes. Call a physician. **Inhalation:** Remove to fresh air. Call a physician. **Ingestion:** If swallowed, promptly give plenty of water or milk. Do not induce vomiting. Call a physician.

For further information, please review the Safety Data Sheet (SDS) and Product Label.

### PHYSICAL DATA

Package: 4 x 3.78L cases,  
18.9L pails & 2 x 10L cases

Appearance: liquid

Colour: milky white

Foam: low

Odour: no added fragrance

pH: 8.0-9.0
