

## DESCRIPTION

Liquid Alk is a laundry additive with a balanced blend of activating agents in liquid form for immediate disbursement throughout the wash load. It contains water conditioning agents for hard water areas. Liquid Alk gives a controlled high pH over an extended period for better cleaning. It assures the highest degree of soil release consistent with safety and retention of tensile strength for longer fabric life.

## FEATURES & BENEFITS

liquid form for immediate disbursement • contain water conditioning agents • specially designed for automatic dispensing in laundry machines • longer lasting fabric life • excellent for use in soft and hard water

## DIRECTIONS

### Usage:

Liquid Alk is designed to be dispensed directly from the shipping container by the liquid laundry dispenser. When Liquid Alk is used, be sure laundered material is adequately rinsed with potable water.

### First Aid:

**Eyes & Skin:** If eye or skin contact occurs, immediately flush with plenty of water for at least 15 minutes. Call a physician. **Ingestion:** If swallowed, promptly give water or milk. Do not induce vomiting. Call a physician.

For further information, please review the **Safety Data Sheet (SDS)** and Product Label.

### Storage & Handling:

Keep out of reach of children. Protect eyes and skin when handling liquid. Store in closed, original container at room temperature. Keep from freezing.

## PHYSICAL DATA

Package: 18.9L pails & 55L kegs

Appearance: liquid

Colour: red

Foam: none

Odour: odourless

pH: strong alkaline
