

DESCRIPTION

MaxPowerRinse is a liquid rinse additive which is metered in to the final rinse of the dishwashing machine in very minute quantities through the ProMax rinse injector. **MaxPowerRinse** contains wetting agents to greatly reduce the surface tension of the rinse water. This allows water to drain completely and quickly producing spot-free, sparkling dishes and cutlery.

FEATURES & BENEFITS

specially formulated for hard water • concentrated • colour-coded blue • for both low- and high-temp dishwashers • excellent risibility • very economical • easy to identify in lines

DIRECTIONS

Uses:

Very minute quantities of **MaxPowerRinse** are injected directly into the final rinse through the rinse injector. For low temperature warewash machines, items should be rinsed with a sanitizing rinse solution. To meet local health regulations, the final rinse water temperature should be 80^o-90^oC. (180^o- 195^oF) if a sanitizing rinse solution is not used.

First Aid:

Eyes&Skin: If eye or skin contact with concentrated product occurs, immediately flush with plenty of water for at least 15 minutes. If irritation occurs, call a physician. **Ingestion:** If swallowed, promptly drink a large quantity of water or milk. Do not induce vomiting. Call a physician.

For further information, please review the **Safety Data Sheet (SDS)** and Product Label.

Storage & Handling:

Keep from freezing. Store upright in original closed container at room temperature away from children.

PHYSICAL DATA

Package: 4 x 3.78L cases, 18.9L pails
& 208L drums

Appearance: liquid

Colour: blue

Foam: low

Odour: mild

pH: acidic
